

SBIRT FOR WOMEN'S HEALTH PROFESSIONALS

This program will provide community health professionals with training and support to manage substance use issues within the women's health setting using an SBIRT model.

The series will include six weekly, one hour tele-ECHO clinics that include a didactic presentation, combined with patient case presentations.

FREE CME/CEU Available

The University of Nevada, Reno School of Medicine approves this program for one (1) hour per session of AMA PRA Category I, Nursing, MFT, CPC, LADC, and Psychology Continuing Education Credit.
